

Books for Summer Reading Program

Children in the Newport area were encouraged to read every summer and receive a free book of their choice through a service project of Perry Valley Grange. The book give-away is coordinated with the established summer reading program at the Newport Public Library.

2017 is the Grange's fourteenth consecutive year providing books for the Newport Library. The Newport Library used the \$500 provided by the Grange this year to purchase books as a reward for those children who participated in and completed their summer reading activity packets and also to purchase supplies for a family oriented project to build bluebird habitat boxes.

Grange volunteers also serve as readers for one of the activity days.
