

## Grange Gives \$10,000 Grant to Perry County Fair

Annually Perry Valley Grange may use up to 10% of funds in its custodial account from the sale of its property in 2014 for community service projects. With these funds, the Grange finances many different causes including one major gift each year. The big project in 2018 was making a \$10,000 grant to the Perry County Fair's capital improvement fund. The eventual goal of this fund is to bring municipal water and sewage service to the fairgrounds. Fair President Darwin Kitner (left) accepted the Grange's donation from Grange officials Linda Byers and Krista Pontius when the first public announcement of the project was made at a June 2018 "Concert in the Park".

The formal presentation of the \$10,000 grant from Perry Valley Grange was made to fair officials in August at a special program from the stage during the annual Perry County Fair.
