

Livestock Purchase at County Fair

Perry Valley Grange continued a service project begun in 2004 to support students involved with livestock production through the FFA and/or 4-H programs. This August the Grange purchased a hog raised by a FFA member Amanda Dobbs during the annual livestock sale at the Perry County Fair.

The purchase price of the hog was \$450. This price is well above the market value of the animal and the Grange is glad to support this young woman's animal production efforts. This year, the animal was disposed of through a packing company buy-back program.

It's a bittersweet moment for Amanda Dobbs as she sells her FFA project pig at the Perry County Fair.
